

**HORSEBACK RIDE** – One of the best ways to see the beauty of the Pantanal, riding through open fields, marshes and forests. This tour offers a unique chance to observe the beauties of Pantanal's local fauna and flora. Well-mannered horses with comfortable saddles make this activity suitable even for those not used to riding horses. The duration of this activity depends on the chosen itinerary, offering short or long circuits, always accompanied by experienced local guides and cowboys.

**BOAT RIDE** – Enjoy the beauty of the Aquidauana River and its beautiful gallery forest with hundreds of centennial trees, home to a variety birds, mammals and reptiles that come to feed and drink on the river banks. For this tour it is mandatory to wear life jackets (provided by the lodge).

**HIKING** – Hike through the gallery forest, with close interaction with nature, stopping once in a while to observe elusive species that are often hidden under their natural camouflage, and many plants and tree species.

**PIRANHA FISHING** – Have fun catching the most famous fish species in Pantanal, the Piranha Fish, in fresh water lakes. The Piranha fish is used in a traditional Pantanal dish, the famous Piranha Broth. The piranhas can also be fed to the caimans that lie in wait close to the boats.

**PHOTOGRAPHIC SAFARI** – This tour is operated in 4x4 adapted open vehicles allowing visitors to reach further places of the property, driving through many different landscapes. This tour provides a wide view of the surrounding areas, increasing the chances to observe more species.

**NIGHT SAFARI** – Night tour operated in 4x4 adapted open vehicles, to search for animals with crepuscular and nocturnal behaviors, using a powerful long-range torch. The Pantanal night sky is one of the highlights in this tour, offering a breathtaking sight of the southern sky, favored by the complete absence of artificial lights.
